## PROHIBITION FIGHT COMING

MATTER IS REFERRED TO ATTORNEY GEN. WEST TO PREPARE BALLOT TITLE.

Democratic Candidates for Governor Declare Themselves in Favor of Prohibition—One Exception

Oklahoma City, Ok., June 17.—Another prohibition fight in Oklahoma is imminent.

The initiated petition, signed by about 70,000 electors, asking that the governor call an election for the submission of a measure proposing to repeal the prohibition ordinance of the constitution, which Gov. Haskell refused to officially receive, was referred to the Attorney General today by secretary of state Cross for the preparation of a ballot title.

The governor having refused to call a special session, the proposition under the law, will be submitted at the general election in November.

The Sons of Washington, a personal liberty organization composed of local chapters throughout the state, will wage the fight for resubmission.

The Anti-Saloon League is organized to oppose it.

The democratic candidates for Governor have declared themselves for prohibition, with the exception of L. P. Ross, and resubmission is becoming an issue in the campaign for members of the legislature.

### How Ballot Title Reads.

W. D. Cardwell, attorney for the resubmission petitioners, obtained from the Attorney General in Guthrie today a ballot to the initiated proposition proposing to repeal state-wide prohibition and substitute local option and high license. The question, he says, will be submitted to the voters at the general election in November. The ballot title reads:

"Purpose to amend Sec. 7, Art. 1, of the constitution and provide for the licensed sale of intoxicating liquors in incorporated cities, towns and villages, after an election to determine whether said municipalities shall license the sale of liquors to be consumed on the premises, at cost

of \$2,000 per year, and the sale in original packages not to be there consumed, at cost of \$500 per year for each license, with restrictions as to Sunday and mid-night closing, prohibiting treating and other restrictions, and repeal the present separate article of constitution relating to prohibition adopted at statehood."

## A BAD NIGGER IN THE RIGHT PLACE

## SAN FRANCISCO FACES CRISIS

GOVERNOR HOLDS UP ACTION ON ASSURANCE POLICE WILL PREVENT KAUFMAN FIGHT.

### BLOT DEFIES GOVERNOR

Will Attempt to Hold Fight This Afternoon—Controversy Agitates City and State.

JEFFRIES FIGHT MAY BE HELD IN GOLDFIELD, NEV. San Francisco, Cal., June 17.—Swamped with protests from Ely and Reno, Nev., Tex Rickard late today stated that he would meet committees from these towns on Sunday night at Reno to allow them to file definite offers for the Johnson-Jeffries fight in opposition to that made by Goldfield and which he accepted this morning. Rickard's acceptance contained a qualifying clause and the committees hope to avail themselves of this. In the meantime the fight is destined for Goldfield, which has offered a guaranty of \$120,000.

San Francisco, Cal., June 17.—"I still have an ace in the hole. When Langford and Kaufman appear tomorrow in the ring sitting in the same box with District Attorney Fickert and Chief of Police Martin will be Adj. General J. B. Lauck, commander of the state militia of California. I have the positive assurance that they (Fickert and Martin) will not permit a single round to be fought. Their promises were given to me personally. I believe and expect they will be kept. The doom of prize fighting in California has been sounded."—Statement by Gov. James N. Gillette.

### City Faces Crisis.

A prize fight controversy plunged San Francisco today into a crisis bearing all the aspects of a miniature civil war. One man—the fight promoter—is in a state of insurrection against California's chief executive. Openly defying the governor, who had ordered out two companies of militia to prevent the "ring contest" if the city authorities refused to act, Louis Blot declares he will hold the Kaufman-Langford affair tomorrow, even though "an army" is called upon to block proceedings.

### City Is Amazed.

The city, was amazed at the day's startling rapid-fire developments. It will be difficult to analyze the conflicting sentiment of the community. Apparently the issue is between Blot and the governor, but no one regards that as more than a manifestation of the real elements in conflict. Ever since the announcement from the governor that the Jeffries-Johnson fight and the Kaufman-Langford fight must not be held in California, hostility between the Chief Executive and the District Attorney has been in evidence. Then came from such the bold challenge in the declaration alleged to have been made by Mayor P. H. McCarthy that he was "running" his town and that the "battle of the century" would certainly be held in San Francisco.

### Reno Wants the Contest.

Despite the fact that Tex Rickard positively stated early today that the Jeffries-Johnson fight would be held in Goldfield, Nev., the sporting world is unconvinced. There is a lingering suspicion, and a strong one, that Reno will be the battle ground. Rickard's announcement was made this morning on receipt of a telegram from Maurice Sullivan, a merchant of Goldfield. It contained an offer of \$120,000 for the fight, and Rickard, without a moment's hesitation, declared for Goldfield.

The promoter, however, knows the danger and inconvenience of definite statements. He immediately qualified his decision with the phrase of "if no higher bid is received from a Nevada town." No sooner had the word of Rickard's action reached Nevada than the wires were burdened with messages of protest and entreaty from Reno and Ely. Rickard's office was swamped with messages and while few of these have been made public, it is sure that strong guarantees back the requests that

the fight be taken to one of those places. So determined was the opposition to Goldfield by the other Nevada towns that the promoter partially yielded in the afternoon.

He informed urgent petitioners in Reno and Ely that he would listen to what they had to say Sunday night in Reno. This notice was also conveyed to Goldfield and committees from each of the Nevada towns will be at Reno Sunday when Rickard arrives from San Francisco.

The matter of the fight site will be considered at a joint conference Sunday night. Judging from Rickard's wily qualification of his decision today the meeting will be an auction at which the much-desired prize will go to the highest bidder.

## CEMENT PLANT BEGINS OPERATIONS

It is reported the cement plant begins operation again this afternoon which means for a good many men the end of their vacation.

### ELECTRIC CO.'S CLOCK SYMPATHIZES WITH METERS

Miss Fannie J. Allen, the News' nearest and fairest young lady neighbor, cashier at the electric light office doesn't understand why the electric company's clock correctly set in the morning gains 40 minutes by the afternoon. It was jokingly suggested to her that probably the company's clock was acting in sympathy with the company's meters.

## CAPITAL CASE TO FEDERAL COURT

NON-ARRIVAL OF JUDGE CAMPBELL CAUSES POSTPONEMENT UNTIL NEXT MONDAY MORNING.

### QUESTION OF JURISDICTION

Validity of 1913 Clause of Enabling Act to Be Brought Up—Announcement by West.

Guthrie, Ok., June 17.—Hearing was not given in the federal court today on the application of a citizen property owner of Guthrie for injunction to restrain removal of the seat of government to Oklahoma City, owing to non-arrival of Judge Ralph E. Campbell of the Eastern District of Oklahoma, who is to preside. By agreement of counsel, hearing was postponed until Monday at 9 a. m.

Proceedings in the federal court is based upon validity of the 1913 clause in the Oklahoma enabling act, which the Constitutional Convention adopted by ordinance irrevocable. In the meantime Attorney General West who returned this afternoon from Oklahoma City, gave instructions to arrange data upon which will be prepared the Governor's application to the Supreme Court of the state for a writ of prohibition against the state district court. Attached to the application, which will probably be filed tomorrow, will be a certificate from the state election board, showing results of the June 11 election, and upon which Gov. Haskell issued his proclamation in Oklahoma City last night declaring that the initiated bill had been adopted.

### Question of Jurisdiction.

It is understood that application to the Supreme Court will raise the question of jurisdiction of the state district court to consider the litigation and particularly that the court has no jurisdiction over the governor in the performance of political acts.

It is questionable whether will be included the other states officers, since it is stated that the arguments before Judge Huston developed that the court would have jurisdiction of all state officers other than the governor.

Stories coming from Oklahoma City indicate that Gov. Haskell and others believe the Federal court will not assume jurisdiction of the controversy because the state court has

already done so, and reference is made to the holding of federal Judge Cotteral in the case of Smith against the state Banking Board in adjudication of the late Columbia Bank and Trust company. The district court of Oklahoma County designated state Bank Commissioner Young as nominal receiver of the property for the state, causing the federal court to refrain from interfering, assuming that there would be a proper disbursement of the assets, and in doing so followed the case of the Waters-Pierce Oil Company against the state of Texas in the United States supreme court. Attorneys for Guthrie point out that there is nothing here indicating a receivership, but a property right, which rests upon a Federal question of whether the 1913 clause in the Oklahoma enabling act is binding.

## A FEW DRUNKS YESTERDAY

There were three drunks arrested yesterday afternoon, all white men—one in the afternoon and two last night. All reported to be plumbers and to have imbibed more bad drinks than they were constitutionally able to support. Suffice it to say they all made bond to appear before police court today.

UNION LABEL

ADA, OKLA.

When statehood came our asylum

facilities were shamefully inadequate

and humanity demanded that additional

buildings be erected for the insane,

the deaf, and the blind. It is to

the everlasting credit of the democratic

administration that proper quarters

were provided for the state's unfortunates,

even though a partisan opposition

branded such a policy as a shameful

waste of money. Would a republican

administration abolish our charitable

institutions and leave our unfortunates

to the mercy of chance and fate? Is

there a single parent who has a stricken

child in one of our asylums for the

deaf, blind or insane, who believes

that the money spent in providing

such institutions was money wasted?

The state provided three new Normal

schools for the Eastside; and this

action has also been classed as foolish

extravagance. But the fact that all

six of our normals are badly crowded

is sufficient evidence of their need.

Then, too, the democratic administration

only gave to the Eastside what the

Westside already had: A republican

territorial administration had erected

one Normal when the population of

the territory was only about 75,000.

Was it criminal extravagance when

a Democratic administration gave six

Normals (three old, three new) to a

state now twenty times as great in

population? Oklahoma Territory had

three normals and no one complained.

Were six too many when the state

doubled in area and more than doubled

in population? And would a republican

administration abolish certain of these

schools, and if so which?

## NO MIXED TICKET; MUST VOTE STRAIGHT

ATTORNEY GENERAL IN OPINION  
STATE VOTER CAN'T VOTE  
DEMOCRATIC COUNTY TICKET  
AND REPUBLICAN STATE TICKET.

There being expressed an interest among some of the voters of Pontotoc county as to the legality of voting a mixed ticket at the August primaries, for instance, voting a democratic county ticket and a state republican ticket and visa versa one of the candidates for county office addressed the attorney general for an opinion.

The following is the letter received from the attorney general's department:

In re-primary election—voting mixed ticket.

Guthrie, Okla., June 13.

Mr. R. C. Rowland, Ada, Okla.

Dear Sir: In answer to your letter of the seventh instant, you are advised that voters at the primary election can affiliate with any one of the political parties which they choose, and having made their selection, will be provided with all the ballots containing names of candidates for nomination of such political party.

It is the opinion of this office that a voter cannot vote the state ballot of one political party and the county ballot of another political party. If the voter is acting as a democrat he can participate in the nomination of all democratic candidates. If he is acting as a republican, he can participate in the nomination of all republican candidates. He cannot act with one political party assume to participate in the nominations of another political party. See Sec. 3276 Snyder's Compiled Laws of Oklahoma, 1909.

Respectfully,

E. G. SPILMAN,

Assistant Attorney General.

## TAFT TAKES STAND FOR STATEHOOD

Urges in Letter to Cannon House  
Accept Senate Bill.

Washington, June 17.—President Taft today took a hand in the statehood fight when he, according to congressmen in touch with the house leaders, wrote a letter to Speaker Cannon urging that the house accept the senate statehood bill and thus save it from the danger of failing in conference.

The text of President Taft's letter to Speaker Cannon has not been made public, but it is understood that the president in his earnest efforts to obtain the passage of the statehood bill wrote very frankly on the subject.

The version current at the capitol is that Speaker Cannon was told that the house ought to concur in the senate amendments and not let the bill go to conference.

The president, it is said, gave it as his opinion that the senate bill, is better than the house bill, and said that he thought the people of New Mexico and Arizona would be so grateful to the republican party for this boon of statehood that they would probably carry the new states for the republicans.

Leaven of Letter Noticeable.

The leaven of this letter was immediately noticeable on the republican side of the chamber, with the result that many republicans who were first inclined to send the bill to conference and let it take its chances there, without caring much whether it every came out of conference, are now in favor of accepting the senate amendments. Although the democrats are opposed to some of the sections of the senate bill, they probably will vote to accept the senate measure.

If the senate bill is accepted, the two states can be kept out of the union for two and one-half years.

Prescriptions of Bill.

The bill also abrogates the Arizona educational tests for voters in the matter of electing delegates to the constitutional convention, ratifying the constitution and voting for the first set of state officers. The bill also requires the approval of congress and the president of any constitution which either Territory may adopt. The bill also sets aside 1,000,000 acres of land to pay off certain debts incurred by the counties of the Territories.

## SOUTHLAND REACHING FOR SETTLERS

Congressman From Louisiana Would  
Turn Tide of Emigration  
Southward.

Washington, June 18.—With "Go South, Young Men and Immigrants" as his keynote, Representative Ransdell of Louisiana Tuesday addressed the house, as a sort of advance agent for the southland in general, and the state of Louisiana in particular.

He based his remarks on the exodus of many of "our best citizens into the British possessions north of the United States and the rapid congestion of our cities, caused by the growing unpopularity of life on the farm, and by the large influx of foreign immigrants, many of whom settled in cities." As a remedy for all these problems, he suggested to the house that the persons concerned should be induced to come to the south.

"In my judgment," said the Louisiana statesman, "this is one of the fruitful causes of the high prices of living. All food products—and the food we eat is our heaviest item of expense—comes from the ground or the sea, and when the number of consumers who dwell in cities disproportionately exceeds the producers in the country, it naturally results in high prices."

In this connection Representative Ransdell said that "what is happening to us is also happening to the nations of Europe."

He also showed that during the last five years 312,614 citizens, carrying with them material wealth in money and property valued at over \$312,000,000 "to say nothing of the immense potential value of each of these splendid people," emigrated.

"The southern states would gladly furnish homes to every one of our own citizens," said he, "who have gone to Canada, or contemplate such a move, and would welcome all the boys and girls who have left or expect to leave the hardships of northern farms to seek unfamiliar work in congested cities. Moreover, we can supply farms to a great many of the foreigners who seek our shores, and we are really anxious to receive all good immigrants of the Teutonic, Scandinavian, British and French races."

He challenged the statements that the south was not a healthy section. The whites, he said, were just as healthy as whites in any other section of the country. "The negro race is not healthy," he admitted, "for reasons which the scope of this speech prevents me from discussing."

Speaking of the negroes, Mr. Ransdell said:

"Some one asks about the race question in the south, whether the Caucasian and the negro can dwell together in harmony. I unhesitatingly answer that they can and do live in the utmost perfect amity."

County Candidate Who Rides Incubator Hobby Advises Host's Wife to Buy an Incubator.

The other day there were a number of candidates gathered around the bountiful dinner table of a prominent Rooseveltian anti-suicide farmer, where there was introduced the subject of chicken raising. A certain candidate from Ada who is an enthusiastic chicken man with an incubator immediately took the lead in the conversation. So intently did he continue to discuss the subject of chickens, that he didn't notice the fact that a diplomatic candidate had changed the main body of the conversation by raising the subject of children, first inquiring of the farmer, the number of his children; the farmer facetiously replied "I'll declare I don't know, how many wife? While the good wife was pondering, the Ada candidate, at the height of his incubator talk, unmindful of such change in the conversation turned to the lady of the house and said: "You ought by all means get you an incubator."

This Ada candidate has since arranged an itinerary for himself.

## Ada Social Events

The 42 club, with several guests, spent a very pleasant evening with Mr. and Mrs. A. K. Thornton, Friday. A delicious ice course was served the members and special guests Mr. and Mrs. Sledge, Mrs. Hall, Misses Alpha Sledge, Voglesang, Benson, Ula Clare Sims, Currie, and Yates, of Paris, Tex., and Messrs. Thursday afternoon from 4 to 6 o'clock Miss Eula Clare Sims was the charming hostess to her friends. The guests were Miss Yates of Paris, Miss Williams, of Paris, Miss Sledge and guests, Misses Voglesang and Benson; Misses Thompson, Shands, Kathrine and Sadie Edmiston, Currie, Sowers, Henderson, Katz and Tolbert.

Mrs. Wintersmith and Miss Thompson assisted the hostesses in serving a refreshing salad and ice course. The entertainment was a most enjoyable one and adds another to the many pleasant social functions given in honor of these three winsome young ladies who are making many friends during their stay in our city.

Sorosis.

Such an enjoyable event was the occasion when Mesdames McKeel, Barton and Bowman entertained the literature department of Sorosis on Friday afternoon at the pleasant home of Mrs. McKeel. The home was beautiful in its decorations of cut flowers and ferns, carrying out the club colors, pink and green.

The members gave a hearty welcome to Mrs. Manville, and glad to have her with them.

In making a "Tour of the Globe" Mrs. Johnson guessed all of the cities and countries, through which the guests must pass, and was awarded with a beautiful hand-painted china cup and caucer.

The guests were then ushered into the dining room where the following four course luncheon was served.

The afternoon passed, oh, so quickly, and at a late hour the guests departed feeling in their hearts, that these ladies were excellent hostesses and proficient in the culinary art.

# RIO GRANDE MATTER BEFORE THE PRESIDENT

Truck Growers Would Make Reservoirs for Irrigation Purposes.

Washington, June 16.—The problem to turn the Rio Grande into a series of reservoirs for the purpose of storing enough water to irrigate 1,000,000 acres of semi-arid land on the Texas and Mexican sides of the Rio Grande, from Del Rio to Brownsville, will be presented to President Taft tomorrow by Census Supervisor Lawrence E. Bennett of Mission, Hidalgo county, and Representative Garner of that congressional district. This can be accomplished only through a new treaty with Mexico permitting the use of the Rio Grande for irrigation, instead of for navigation, as now provided.

The whole matter is fully set out in a memorial prepared by the Mission Truck Growers' Association of Mission, Tex., which, among other things, sets out the following: "We favor the abrogation of the present treaty with Mexico which establishes the Rio Grande as a navigable river and the utilization of all the waters of that river above Brownsville for irrigation purposes and its abandonment for navigation west of Brownsville.

"We favor a treaty with Mexico defining what part of the waters of the Rio Grande belongs to the United States and what part belongs to Mexico.

"We favor the authorization by treaty of the right of either government or private capital to build international dam or dams to raise the level of the water at suitable point or points and make it possible thereby to build a high level main trunk canal or canals to supply water by gravity without pumping to all the present canals if desired both for first and second bench.

"We favor the establishment by treaty with Mexico of large storage reservoirs to collect, in so far as possible, the flood waters of the Rio Grande for use during the period of low water."

## SOME COLORED SPORTS IN OKLAHOMA

Would See the Big Fight But Don't Like to Be Restricted.

San Francisco, June 17.—Here is a list of the pleasures from which 175 colored gentlemen, who had chartered a special train to come from Oklahoma City to see the big fight, had agreed to abstain from while en route:

Carrying razors.

Rolling the bones.

Eating chicken not regularly purchased.

A delegation of that many investigators of Ethiopian persuasion, residents of Oklahoma City, completed arrangements with the Southern Pacific company for a special train from their city to this city very early in July.

They were coming here to investigate a report that a certain white man is a more proficient chamois pusher than a certain black man and the result of their investigation would be made the subject of a scientific which they attack great questions discussion and, perhaps, the occasion of one or two cutting affrays, which are no more than indicative of the energy and enthusiasm with which they attack great questions and each other.

### Razor Practice Barred.

The trip, however, would have proved a great hardship to the travelers, for the railroad company, after a long and exhaustive study of the problem, announced that the investigators would be permitted the use of the train for only sleeping and eating purposes and that no athletics or indoor sports, such as razor practice or the development of arm and throat muscles by rolling freckled ivory cubes on the floor would be tolerated.

There was no ban on singing or the consumption of chicken, but the chickens were to be in the cars when the train is boarded or must be brought in by employees of the company, and the members of the delegation have been told that the company will consider it a faux pas on the part of any investigator who employs bohemian methods in the selection of his meals or the constituent parts thereof.

A green oasis in the desert of tranquility had been provided for. Five of the gentlemen who make up the party are tonsorial artists. It would out of the question to ask that they shave with combs and brushes, but the rule in inflexible that their razors were to be used solely for shaving in the regular way that is standardized by barbers of the lighter complexion.

It is on the honor of these five gentlemen that the railroad company depends its hope to have just as many live persons get off the special as boarded it at Oklahoma City, for it has been known to happen that a gentleman borrowed a razor on the statement that he was going to shave himself and ten minutes later convict himself, among other things, of lying.

### "A Magnanimous Outrage."

One of the passengers is a gentleman who aspires to be minister to Dahomey. He lived in Texas then. The government said he could not be what he wanted to be with its knowledge and consent, so he abandoned Texas to its fate and moved to Oklahoma.

The investigators do not regard the restrictions named as a bar to their pleasure, but the sentiment in this city condemns the railroads' orders as outrageous.

"Yes, indeed," said one of a group of colored persons yesterday, "this is one of the most magnanimous outrages ever perpetrated by a corporation and, to say the least, it smacks of indubitability. Further, I am constrained to the impression that our race would soon fall into decayment if white folks made it mandatory that we should have absolutely to disqualify the use of razors. It is undeniably sacrilegious."

### MAIL ROBBERIES UNEARTHED.

Valuable Packages Found Under Old Depot Platform.

Anderson returned yesterday from Kennedy and reports a systematic robbery of the mails was discovered there when the platform of the old passenger depot of the San Antonio & Aransas Pass Railway was torn away. ### BURIED TREASURE GOOD "AD."

London Nearly Torn Apart Seeking Sir George Newnes' Gold.

The recent death of Sir George Newnes, proprietor of the Westminster Gazette, founder of the company owning Tit-Bits and the Strand Magazine and donor of the international chess trophy bearing his name, will recall to many the "buried treasure" method by which he advertised his publications in London a few years ago.

It was announced that a tube containing 500 sovereigns had been buried in some secret place, the clue to which was contained in a story published in the Strand. The resulting excitement can be imagined. All England was turned upside down. Then came the announcement that another deposit of ten lots of £100 each had been made.

Something in the story seemed to point to Trafalgar square as the place where the treasure was buried, and the police had to be called out to stop the eager treasure hunters. Houses were pulled down, shops were invaded by persons who insisted that they be allowed to burrow under the floors, and traffic was held up while the gold crazy horde measured off distances with a tape.

Finally it looked as if they might tear down the Nelson column. It was then that the police intervened and put a stop to the plan, but the Newnes publications had already gained a tremendous amount of free advertising.

The first numbers on the Chautauqua program are very fine. Do not miss the first numbers.

## PROHIBITION FIGHT COMING

MATTER IS REFERRED TO ATTORNEY GEN. WEST TO PREPARE BALLOT TITLE.

Democratic Candidates for Governor Declare Themselves in Favor of Prohibition—One Exception

Oklahoma City, Ok., June 17.—Another prohibition fight in Oklahoma is imminent.

The initiated petition, signed by about 70,000 electors, asking that the governor call an election for the submission of a measure proposing to repeal the prohibition ordinance of the constitution, which Gov. Haskell refused to officially receive, was referred to the Attorney General today by secretary of state Cross for the preparation of a ballot title.

The governor having refused to call a special session, the proposition under the law, will be submitted at the general election in November.

The Sons of Washington, a personal liberty organization composed of local chapters throughout the state, will wage the fight for resubmission.

The Anti-Saloon League is organized to oppose it.

The democratic candidates for Governor have declared themselves for prohibition, with the exception of L. P. Ross, and resubmission is becoming an issue in the campaign for members of the legislature.

### How Ballot Title Reads.

W. D. Cardwell, attorney for the submission petitioners, obtained from the Attorney General in Guthrie today a ballot to the initiated proposition proposing to repeal state-wide prohibition and substitute local option and high license. The question, he says, will be submitted to the voters at the general election in November. The ballot title reads:

"Purpose to amend Sec. 7, Art. 1, of the constitution and provide for the licensed sale of intoxicating liquors in incorporated cities, towns and villages, after an election to determine whether said municipalities shall license the sale of liquors to be consumed on the premises, at cost

of \$2,000 per year, and the sale in original packages not to be there consumed, at cost of \$500 per year for each license, with restrictions as to Sunday and mid-night closing, prohibiting treating and other restrictions, and repeal the present separate article of constitution relating to prohibition adopted at statehood."

## SAN FRANCISCO FACES CRISIS

GOVERNOR HOLDS UP ACTION ON ASSURANCE POLICE WILL PREVENT KAUFMAN FIGHT.

### BLOT DEFIES GOVERNOR

Will Attempt to Hold Fight This Afternoon—Controversy Agitates City and State.

\*\*\*\*\*  
JEFFRIES FIGHT MAY BE HELD IN GOLDFIELD, NEV.  
San Francisco, Cal., June 17.—Swamped with protests from Ely and Reno, Nev., Tex Rickard late today stated that he would meet committees from these towns on Sunday night at Reno to allow them to file definite offers for the Johnson-Jeffries fight in opposition to that made by Goldfield and which he accepted this morning. Rickard's acceptance contained a qualifying clause and the committees hope to avail themselves of this. In the meantime the fight is destined for Goldfield, which has offered a guaranty of \$120,000.  
\*\*\*\*\*

San Francisco, Cal., June 17.—"I still have an ace in the hole. When Langford and Kaufman appear tomorrow in the ring sitting in the same box with District Attorney Pickert and Chief of Police Martin will be Adj. General J. B. Lauck, commander of the state militia of California. I have the positive assurance that they (Pickert and Martin) will not permit a single round to be fought. Their promises were given to me personally. I believe and expect they will be kept. The doom of prize fighting in California has been sounded."—Statement by Gov. James N. Gillette.

### City Faces Crisis.

A prize fight controversy plunged San Francisco today into a crisis bearing all the aspects of a miniature civil war. One man—the fight promoter—is in a state of insurrection against California's chief executive. Openly defying the governor, who had ordered out two companies of militia to prevent the "ring contest" if the city authorities refused to act, Louis Blot declares he will hold the Kaufman-Langford affair tomorrow, even though "an army" is called upon to block proceedings.

### City Is Amazed.

The city, was amazed at the day's startling rapid-fire developments. It will be difficult to analyze the conflicting sentiment of the community. Apparently the issue is between Blot and the governor, but no one regards that as more than a manifestation of the real elements in conflict. Ever since the announcement from the governor that the Jeffries-Johnson fight must not be held in California, hostility between the Chief Executive and the District Attorney has been in evidence. Then came from such the bold challenge in the declaration alleged to have been made by Mayor P. H. McCarthy that he was "running" his town and that the "battle of the century" would certainly be held in San Francisco.

### Reno Wants the Contest.

Despite the fact that Tex Rickard positively stated early today that the Jeffries-Johnson fight would be held in Goldfield, Nev., the sporting world is unconvinced. There is a lingering suspicion, and a strong one, that Reno will be the battle ground. Rickard's announcement was made this morning on receipt of a telegram from Maurice Sullivan, a merchant of Goldfield. It contained an offer of \$120,000 for the fight, and Rickard, without a moment's hesitation, declared for Goldfield.

The promoter, however, knows the danger and inconvenience of definite statements. He immediately qualified his decision with the phrase of "if no higher bid is received from a Nevada town." No sooner had the word of Rickard's action reached Nevada than the wires were burdened with messages of protest and entreaty from Reno and Ely. Rickard's office was swamped with messages and while few of these have been made public, it is sure that strong guarantees back the requests that

the fight be taken to one of those places. So determined was the opposition to Goldfield by the other Nevada towns that the promoter partially yielded in the afternoon.

He informed urgent petitioners in Reno and Ely that he would listen to what they had to say Sunday night in Reno. This notice was also conveyed to Goldfield and committees from each of the Nevada towns will be at Reno Sunday when Rickard arrives from San Francisco.

The matter of the fight site will be considered at a joint conference Sunday night. Judging from Rickard's wily application of his decision today the meeting will be an auction at which the much-desired prize will go to the highest bidder.

## CAPITAL CASE TO FEDERAL COURT

NON-ARRIVAL OF JUDGE CAMPBELL CAUSES POSTPONEMENT UNTIL NEXT MONDAY MORNING.

### QUESTION OF JURISDICTION

Validity of 1913 Clause of Enabling Act to Be Brought Up—Announcement by West.

Guthrie, Ok., June 17.—Hearing was not given in the federal court today on the application of a citizen property owner of Guthrie for injunction to restrain removal of the seat of government to Oklahoma City, owing to non-arrival of Judge Ralph E. Campbell of the Eastern District of Oklahoma, who is to preside. By agreement of counsel, hearing was postponed until Monday at 9 a. m.

Proceedings in the federal court is based upon validity of the 1913 clause in the Oklahoma enabling act, which the Constitutional Convention adopted by ordinance irrevocable. In the meantime Attorney General West who returned this afternoon from Oklahoma City, gave instructions to arrange data upon which will be prepared the Governor's application to the Supreme Court of the state for a writ of prohibition against the state district court. Attached to the application, which will probably be filed tomorrow, will be a certificate from the state election board, showing results of the June 11 election, and upon which Gov. Haskell issued his proclamation in Oklahoma City last night declaring that the initiated bill had been adopted.

### Question of Jurisdiction.

It is understood that application to the Supreme Court will raise the question of jurisdiction of the state district court to consider the litigation and particularly that the court has no jurisdiction over the governor in the performance of political acts.

It is questionable whether will be included the other states officers, since it is stated that the arguments before Judge Huston developed that the court would have jurisdiction of all state officers other than the governor.

Stories coming from Oklahoma City indicate that Gov. Haskell and others believe the Federal court will not assume jurisdiction of the controversy because the state court has

already done so, and reference is made to the holding of federal Judge Cottrell in the case of Smith against the state Banking Board in adjudication of the late Columbia Bank and Trust company. The district court of Oklahoma County designated state Bank Commissioner Young as nominal receiver of the property for the state, causing the federal court to refrain from interfering, assuming that there would be a proper disbursement of the assets, and in doing so followed the case of the Waters-Pierce Oil Company against the state of Texas in the United States supreme court. Attorneys for Guthrie point out that there is nothing here indicating a receivership, but a property right, which rests upon a Federal question of whether the 1913 clause in the Oklahoma enabling act is binding.

Entered as Second Class matter, March 28, 1904, at the Postoffice at Ada, Okla., under the Act of Congress of March 3, 1879.

When statehood came our asylum facilities were shamefully inadequate and humanity demanded that additional buildings be erected for the insane, the deaf, and the blind. It is to the everlasting credit of the democratic administration that proper quarters were provided for the state's unfortunate, even though a partisan opposition branded such a policy as a shameful waste of money. Would a republican administration abolish our charitable institutions and leave our unfortunate to the mercy of chance and fate? Is there a single parent who has a stricken child in one of our asylums for the deaf, blind or insane, who believes that the money spent in providing such institutions was money wasted?

The state provided three new Normal schools for the Eastside; and this action has also been classed as foolish extravagance. But the fact that all six of our normals are badly crowded is sufficient evidence of their need. Then, too, the democratic administration only gave to the Eastside what the Westside already had. A republican territorial administration had erected one Normal when the population of the territory was only about 75,000. Was it criminal extravagance when a Democratic administration gave six Normals (three old, three new) to a state now twenty times as great in population? Oklahoma Territory had three normals and no one complained. Were six too many when the state doubled in area and more than doubled in population? And would a republican administration abolish certain of these schools, and if so which?

## NO MIXED TICKET; MUST VOTE STRAIGHT

**ATTORNEY GENERAL IN OPINION STATE VOTER CAN'T VOTE DEMOCRATIC COUNTY TICKET AND REPUBLICAN STATE TICKET.**

There being expressed an interest among some of the voters of Pontotoc county as to the legality of voting a mixed ticket at the August primaries, for instance, voting a democratic county ticket and a state republican ticket and visa versa one of the candidates for county office addressed the attorney general for an opinion.

The following is the letter received from the attorney general's department:

In re-primary election--voting mixed ticket.

Guthrie, Okla., June 13.

Mr. R. C. Rowland, Ada, Okla.

Dear Sir: In answer to your letter of the seventh instant, you are advised that voters at the primary election can affiliate with any one of the political parties which they choose, and having made their selection, will be provided with all the ballots containing names of candidates for nomination of such political party.

It is the opinion of this office that a voter cannot vote the state ballot of one political party and the county ballot of another political party. If the voter is acting as a democrat he can participate in the nomination of all democratic candidates. If he is acting as a republican, he can participate in the nomination of all republican candidates. He cannot act with one political party assume to participate in the nominations of another political party.

See Sec. 3276 Snyder's Compiled Laws of Oklahoma, 1909.

Respectfully,  
E. G. SPILMAN,  
Assistant Attorney General.

# Taft Takes Stand for Statehood

**Urges in Letter to Cannon House Accept Senate Bill.**

Washington, June 17.—President Taft today took a hand in the statehood fight when he, according to congressmen in touch with the house leaders, wrote a letter to Speaker Cannon urging that the house accept the senate statehood bill and thus save it from the danger of falling in conference.

The text of President Taft's letter to Speaker Cannon has not been made public, but it is understood that the president in his earnest efforts to obtain the passage of the statehood bill wrote very frankly on the subject.

The version current at the capitol is that Speaker Cannon was told that the house ought to concur in the senate amendments and not let the bill go to conference.

The president, it is said, gave it as his opinion that the senate bill, is better than the house bill, and said that he thought the people of New Mexico and Arizona would be so grateful to the republican party for this boon of statehood that they would probably carry the new states for the republicans.

**Leaven of Letter Noticeable.**

The leaven of this letter was immediately noticeable on the republican side of the chamber, with the result that many republicans who were first inclined to send the bill to conference and let it take its chances there, without caring much whether it ever came out of conference, are now in favor of accepting the senate amendments. Although the democrats are opposed to some of the sections of the senate bill, they probably will vote to accept the senate measure.

If the senate bill is accepted, the two states can be kept out of the union for two and one-half years.

**Prescriptions of Bill.**

The bill also abrogates the Arizona educational tests for voters in the matter of electing delegates to the constitutional convention, ratifying the constitution and voting for the first set of state officers. The bill also requires the approval of congress and the president of any constitution which either Territory may adopt. The bill also sets aside 1,000,000 acres of land to pay off certain debts incurred by the counties of the Territories.

Utica, N. Y., June 18.—A runaway horse which jumped the railing of an Erie canal bridge late Wednesday night created such a commotion in the water that the body of a man was brought to the surface. The body had been in the water for a long time.

A union button and a letter signed, "Your dear wife, Anna" were found in his clothes.

## ARRESTED FOR DISTURBING PEACE OF A SOCIALIST.

## SOUTHLAND REACHING FOR SETTLERS

**Congressman From Louisiana Would Turn Tide of Emigration Southward.**

Washington, June 18.—With "Go South, Young Men and Immigrants" as his keynote, Representative Ransdell of Louisiana Tuesday addressed the house, as a sort of advance agent for the southland, in general, and the state of Louisiana in particular.

He based his remarks on the exodus of many of "our best citizens into the British possessions north of the United States and the rapid congestion of our cities, caused by the growing unpopularity of life on the farm, and by the large influx of foreign immigrants, many of whom settled in cities." As a remedy for all these problems, he suggested to the house that the persons concerned should be induced to come to the south.

"In my judgment," said the Louisiana statesman, "this is one of the fruitful causes of the high prices of living. All food products—and the food we eat is our heaviest item of expense—comes from the ground or the sea, and when the number of consumers who dwell in cities disproportionately exceeds the producers in the country, it naturally results in high prices."

In this connection Representative Ransdell said that "what is happening to us is also happening to the nations of Europe."

He also showed that during the last five years 312,614 citizens, carrying with them material wealth in money and property valued at over \$312,000,000 "to say nothing of the immense potential value of each of these splendid people," emigrated.

"The southern states would gladly furnish homes to every one of our own citizens," said he, "who have gone to Canada, or contemplate such a move, and would welcome all the boys and girls who have left or expect to leave the hardships of northern farms to seek unfamiliar work in congested cities. Moreover, we can supply farms to a great many of the foreigners who seek our shores, and we are really anxious to receive all good immigrants of the Teutonic, Scandinavian, British and French races."

He challenged the statements that the south was not a healthy section. The whites, he said, were just as healthy as whites in any other section of the country. "The negro race is not healthy," he admitted, "for reasons which the scope of this speech prevents me from discussing." Speaking of the negroes, Mr. Ransdell said:

"Some one asks about the race question in the south, whether the Caucasian and the negro can dwell together in harmony. I unhesitatingly answer that they can and do live in the utmost perfect amity."

## JOKE ON ADA MAN

County Candidate Wao Rides Incubator Hobby Advises Host's Wife to Buy an Incubator.

The other day there were a number of candidates gathered around the bountiful dinner table of a prominent Rooseveltian anti-sulicide farmer, where there was introduced the subject of chicken raising. A certain candidate from Ada who is an enthusiastic chicken man with an incubator immediately took the lead in the conversation. So intently did he continue to discuss the subject of chickens, that he didn't notice the fact that a diplomatic candidate had changed the main body of the conversation by raising the subject of children, first inquiring of the farmer, the number of his children; the farmer facetiously replied "I'll declare I don't know, how many wife? While the good wife was pondering, the Ada candidate, at the height of his incubator talk, unmindful of such change in the conversation turned to the lady of the house and said: "You ought by all means get you an incubator."

This Ada candidate has since arranged an itinerary for himself.

Truck Growers Would Make Reservoirs for Irrigation Purposes.

Washington, June 16.—The problem to turn the Rio Grande into a series of reservoirs for the purpose of storing enough water to irrigate 1,000,000 acres of semi-arid land on the Texas and Mexican sides of the Rio Grande, from Del Arto to Brownsville, will be presented to President Taft tomorrow by Census Supervisor Lawrence E. Bennett of Mission, Hidalgo county, and Representative Garner of that congressional district. This can be accomplished only through a new treaty with Mexico permitting the use of the Rio Grande for irrigation, instead of for navigation, as now provided.

The whole matter is fully set out in a memorial prepared by the Mission Truck Growers' Association of Mission, Tex., which, among other things, sets out the following: "We favor the abrogation of the present treaty with Mexico which establishes the Rio Grande as a navigable river and the utilization of all the waters of that river above Brownsville for irrigation purposes and its abandonment for navigation west of Brownsville."

"We favor a treaty with Mexico defining what part of the waters of the Rio Grande belongs to the United States and what part belongs to Mexico."

"We favor the authorization by treaty of the right of either government or private capital to build international dam or dams to raise the level of the water at suitable points or points and make it possible thereby to build a high level main trunk canal or canals to supply water by gravity without pumping to all the present canals if desired both for first and second bench."

"We favor the establishment by treaty with Mexico of large storage reservoirs to collect, in so far as possible, the flood waters of the Rio Grande for use during the period of low water."

Don't Delay.

Let us show you the Dan Hays addition today. Prices reasonable, terms easy—without interest.

Would See the Big Fight But Don't Like to Be Restricted.

San Francisco, June 17.—Here is a list of the pleasures from which 175 colored gentlemen, who had chartered a special train to come from Oklahoma City to see the big fight, had agreed to abstain from while en route.

Carrying razors. Rolling the bones. Eating chicken not regularly purchased.

A delegation of that many investigators of Ethiopian persuasion, residents of Oklahoma City, completed arrangements with the Southern Pacific company for a special train from their city to this city very early in July.

They were coming here to investigate a report that a certain white man is a more proficient chamolli pusher than a certain black man and the result of their investigation would be made the subject of a scientific which they attack great questions discussion and, perhaps, the occasion of one or two cutting affairs, which are no more than indicative of the energy and enthusiasm with which they attack great questions and each other.

Razor Practice Barred.

The trip, however, would have proved a great hardship to the travelers, for the railroad company, after a long and exhaustive study of the problem, announced that the investigators would be permitted the use of the train for only sleeping and eating purposes and that no athletics or indoor sports, such as razor practice or the development of arm and throat muscles by rolling freckled ivory cubes on the floor would be tolerated.

There was no ban on singing or the consumption of chicken, but the chickens were to be in the cars when the train is boarded or must be brought in by employees of the company, and the members of the delegation have been told that the company will consider it a faux pas on the part of any investigator who employs bohemian methods in the selection of his meals or the constituent parts thereof.

A green oasis in the desert of tranquility had been provided for five of the gentlemen who make up the party are tonorial artists. It would out of the question to ask that they shave with combs and brushes, but the rule in inflexible that their razors were to be used solely for shaving in the regular way that is standardized by barbers of the lighter complexion.

It is on the honor of these five gentlemen that the railroad company depends its hope to have just as many live persons get off the special as boarded it at Oklahoma City, for it has been known to happen that a gentleman borrowed a razor on the statement that he was going to shave himself and ten minutes later convicted himself, among other things, of lying.

"A Magnanimous Outrage."

One of the passengers is a gentleman who aspires to be minister to Dahomey. He lived in Texas then. The government said he could not be what he wanted to be with its knowledge and consent, so he abandoned Texas to its fate and moved to Oklahoma.

The investigators do not regard the restrictions named as a bar to their pleasure, but the sentiment in this city condemns the railroads' orders as outrageous.

Yes, indeed," said one of a group of colored persons yesterday, this is one of the most magnanimous outrages ever perpetrated by a corporation and, to say the least it smacks of indubitability. Further, I am constrained to the impression that our race would soon fall into decayment if white folks made it mandatory that we should have absolutely to disqualify the use of razors. It is undeniably sacrilegious.

BURIED TREASURE GOOD "AD."

London Nearly Torn Apart Seeking Sir George Newnes' Gold.

The recent death of Sir George Newnes, proprietor of the Westminster Gazette, founder of the company owning Tit-Bits and the Strand Magazine and donor of the international chess trophy bearing his name, will recall to many the "buried treasure" method by which he advertised his publications in London a few years ago.

It was announced that a tube containing 500 sovereigns had been buried in some secret place, the clue to which was contained in a story published in the Strand. The resulting excitement can be imagined. All England was turned upside down. Then came the announcement that another deposit of ten lots of £100 each had been made.

Something in the story seemed to point to Trafalgar square as the place where the treasure was buried, and the police had to be called out to stop the eager treasure hunters. Houses were pulled down, shops were invaded by persons who insisted that they be allowed to burrow under the floors, and traffic was held up while the gold crazy horde measured off distances with a tape.

Finally it looked as if they might tear down the Nelson column. It was then that the police intervened and put a stop to the plan, but the Newnes publications had already gained a tremendous amount of free advertising.

The first numbers on the Chautauqua program are very fine. Do not miss the first numbers.

## PROHIBITION FIGHT COMING

MATTER IS REFERRED TO ATTORNEY GEN. WEST TO PREPARE BALLOT TITLE.

Democratic Candidates for Governor Declare Themselves in Favor of Prohibition—One Exception

Oklahoma City, Ok., June 17.—Another prohibition fight in Oklahoma is imminent.

The initiated petition, signed by about 70,000 electors, asking that the governor call an election for the submission of a measure proposing to repeal the prohibition ordinance of the constitution, which Gov. Haskell refused to officially receive, was referred to the Attorney General today by secretary of state Cross for the preparation of a ballot title.

The governor having refused to call a special session, the proposition under the law, will be submitted at the general election in November.

The Sons of Washington, a personal liberty organization composed of local chapters throughout the state, will wage the fight for resubmission.

The Anti-Saloon League is organized to oppose it.

The democratic candidates for Governor have declared themselves for prohibition, with the exception of L. P. Ross, and resubmission is becoming an issue in the campaign for members of the legislature.

### How Ballot Title Reads.

W. D. Cardwell, attorney for the resubmission petitioners, obtained from the Attorney General in Guthrie today a ballot to the initiated proposition proposing to repeal state-wide prohibition and substitute local option and high license. The question, he says, will be submitted to the voters at the general election in November. The ballot title reads:

"Purpose to amend Sec. 7, Art. 1, of the constitution and provide for the licensed sale of intoxicating liquors in incorporated cities, towns and villages, after an election to determine whether said municipalities shall license the sale of liquors to be consumed on the premises, at cost

of \$2,000 per year, and the sale in original packages not to be there consumed, at cost of \$500 per year for each license, with restrictions as to Sunday and mid-night closing, prohibiting treating and other restrictions, and repeal the present separate article of constitution relating to prohibition adopted at statehood."

## SAN FRANCISCO FACES CRISIS

GOVERNOR HOLDS UP ACTION ON ASSURANCE POLICE WILL PREVENT KAUFMAN FIGHT.

### BLOT DEFIES GOVERNOR

Will Attempt to Hold Fight This Afternoon—Controversy Agitates City and State.

\*\*\*\*\*  
JEFFRIES FIGHT MAY BE HELD IN GOLDFIELD, NEV.  
San Francisco, Cal., June 17.—Swamped with protests from Ely and Reno, Nev., Tex Rickard late today stated that he would meet committees from these towns on Sunday night at Reno to allow them to file definite offers for the Johnson-Jeffries fight in opposition to that made by Goldfield and which he accepted this morning. Rickard's acceptance contained a qualifying clause and the committees hope to avail themselves of this. In the meantime the fight is destined for Goldfield, which has offered a guaranty of \$120,000.  
\*\*\*\*\*

San Francisco, Cal., June 17.—"I still have an ace in the hole. When Langford and Kaufman appear tomorrow in the ring sitting in the same box with District Attorney Fickert and Chief of Police Martin will be Adj. General J. B. Lauck, commander of the state militia of California. I have the positive assurance that they (Fickert and Martin) will not permit a single round to be fought. Their promises were given to me personally. I believe and expect they will be kept. The doom of prize fighting in California has been sounded."—Statement by Gov. James N. Gillette.

### City Faces Crisis.

A prize fight controversy plunged San Francisco today into a crisis bearing all the aspects of a miniature civil war. One man—the fight promoter—is in a state of insurrection against California's chief executive. Openly defying the governor, who had ordered out two companies of militia to prevent the "ring contest" if the city authorities refused to act, Louis Blot declares he will hold the Kaufman-Langford affair tomorrow, even though "an army" is called upon to block proceedings.  
City Is Amazed.

The city was amazed at the day's startling rapid-fire developments. It will be difficult to analyze the conflicting sentiment of the community. Apparently the issue is between Blot and the governor, but no one regards that as more than a manifestation of the real elements in conflict. Ever since the announcement from the governor that the Jeffries-Johnson fight must not be held in California, hostility between the Chief Executive and the District Attorney has been in evidence. Then came from such the bold challenge in the declaration alleged to have been made by Mayor P. H. McCarthy that he was "running" his town and that the "battle of the century" would certainly be held in San Francisco.

### Reno Wants the Contest.

Despite the fact that Tex Rickard positively stated early today that the Jeffries-Johnson fight would be held in Goldfield, Nev., the sporting world is unconvinced. There is a lingering suspicion, and a strong one, that Reno will be the battle ground. Rickard's announcement was made this morning on receipt of a telegram from Maurice Sullivan, a merchant of Goldfield. It contained an offer of \$120,000 for the fight, and Rickard, without a moment's hesitation, declared for Goldfield.

The promoter, however, knows the danger and inconvenience of definite statements. He immediately qualified his decision with the phrase of "If no higher bid is received from a Nevada town." No sooner had the word of Rickard's action reached Nevada than the wires were burdened with messages of protest and entreaty from Reno and Ely. Rickard's office was swamped with messages and while few of these have been made public, it is sure that strong guarantees back the requests that

the fight be taken to one of those places. So determined was the opposition to Goldfield by the other Nevada towns that the promoter partially yielded in the afternoon.

He informed urgent petitioners in Reno and Ely that he would listen to what they had to say Sunday night in Reno. This notice was also conveyed to Goldfield and committees from each of the Nevada towns will be at Reno Sunday when Rickard arrives from San Francisco.

The matter of the fight site will be considered at a joint conference Sunday night. Judging from Rickard's wily qualification of his decision today the meeting will be an auction at which the much-desired prize will go to the highest bidder.

## CAPITAL CASE TO FEDERAL COURT

NON-ARRIVAL OF JUDGE CAMPBELL CAUSES POSTPONEMENT UNTIL NEXT MONDAY MORNING.

### QUESTION OF JURISDICTION

Validity of 1913 Clause of Enabling Act to Be Brought Up—Announcement by West.

Guthrie, Ok., June 17.—Hearing was not given in the federal court today on the application of a citizen property owner of Guthrie for injunction to restrain removal of the seat of government to Oklahoma City, owing to non-arrival of Judge Ralph E. Campbell of the Eastern District of Oklahoma, who is to preside. By agreement of counsel, hearing was postponed until Monday at 9 a. m.

Proceedings in the federal court is based upon validity of the 1913 clause in the Oklahoma enabling act, which the Constitutional Convention adopted by ordinance irrevocable. In the meantime Attorney General West who returned this afternoon from Oklahoma City, gave instructions to arrange data upon which will be prepared the Governor's application to the Supreme Court of the state for a writ of prohibition against the state district court. Attached to the application, which will probably be filed tomorrow, will be a certificate from the state election board, showing results of the June 11 election, and upon which Gov. Haskell issued his proclamation in Oklahoma City last night declaring that the initiated bill had been adopted.

Question of Jurisdiction.  
It is understood that application to the Supreme Court will raise the question of jurisdiction of the state district court to consider the litigation and particularly that the court has no jurisdiction over the governor in the performance of political acts.

It is questionable whether will be included the other states officers, since it is stated that the arguments before Judge Huston developed that the court would have jurisdiction of all state officers other than the governor.

Stories coming from Oklahoma City indicate that Gov. Haskell and others believe the Federal court will not assume jurisdiction of the controversy because the state court has

already done so, and reference is made to the holding of federal Judge Cotterell in the case of Smith against the state Banking Board in adjudication of the Iac Columbia Bank and Trust company. The district court of Oklahoma County designated state Bank Commissioner Young as nominal receiver of the property for the state, causing the federal court to refrain from interfering, assuming that there would be a proper disbursement of the assets, and in doing so followed the case of the Waters-Pierce Oil Company against the state of Texas in the United States supreme court. Attorneys for Guthrie point out that there is nothing here indicating a receivership, but a property right, which rests upon a Federal question of whether the 1913 clause in the Oklahoma enabling act is binding.

Entered as Second Class matter,  
March 26, 1904, at the Postoffice at  
Ada, Okla., under the Act of Congress of March 3, 1879.

When statehood came our asylum facilities were shamefully inadequate and humanity demanded that additional buildings be erected for the insane, the deaf, and the blind. It is to the everlasting credit of the democratic administration that proper quarters were provided for the state's unfortunates, even though a partisan opposition branded such a policy as a shameful waste of money. Would a republican administration abolish our charitable institutions and leave our unfortunates to the mercy of chance and fate? Is there a single parent who has a stricken child in one of our asylums for the deaf, blind or insane, who believes that the money spent in providing such institutions was money wasted?

The state provided three new Normal schools for the Eastside; and this action has also been classed as foolish extravagance. But the fact that all six of our normals are badly crowded is sufficient evidence of their need. Then, too, the democratic administration only gave to the Eastside what the Westside already had. A republican territorial administration had erected one Normal when the population of the territory was only about 75,000. Was it criminal extravagance when a Democratic administration gave six Normals (three old, three new) to a state now twenty times as great in population? Oklahoma Territory had three normals and no one complained. Were six too many when the state doubled in area and more than doubled in population? And would a republican administration abolish certain of these schools, and if so which?

## NO MIXED TICKET, MUST VOTE STRAIGHT

ATTORNEY GENERAL IN OPINION  
STATE VOTER CAN'T VOTE  
DEMOCRATIC COUNTY TICKET  
AND REPUBLICAN STATE TICKET.

There being expressed an interest among some of the voters of Pontotoc county as to the legality of voting a mixed ticket at the August primaries, for instance, voting a democratic county ticket and a state republican ticket and visa versa one of the candidates for county office addressed the attorney general for an opinion.

The following is the letter received from the attorney general's department:  
In re-primary election—voting mixed ticket.

Guthrie, Okla., June 13.

Mr. R. C. Rowland, Ada, Okla.

Dear Sir: In answer to your letter of the seventh instant, you are advised that voters at the primary election can affiliate with any one of the political parties which they choose, and having made their selection, will be provided with all the ballots containing names of candidates for nomination of such political party.

It is the opinion of this office that a voter cannot vote the state ballot of one political party and the county ballot of another political party. If the voter is acting as a democrat he can participate in the nomination of all democratic candidates. If he is acting as a republican, he can participate in the nomination of all republican candidates. He cannot act with one political party and assume to participate in the nominations of another political party. See Sec. 3276 Snyder's Compiled Laws of Oklahoma, 1909.

Respectfully,  
E. G. SPILMAN,  
Assistant Attorney General.

Will Dock Today.

Sable Island, N. S., June 17.—The wireless station was in communication with the Kaiserine Augusta Victoria yesterday. She was eight hundred and five miles east of Sandy Hook and will probably dock in New York at 11 o'clock Saturday morning. Theodore Roosevelt is one of the passengers.

# TAFT TAKES STAND FOR STATEHOOD

Urges in Letter to Cannon House Accept Senate Bill.

Washington, June 17.—President Taft today took a hand in the statehood fight when he, according to congressmen in touch with the house leaders, wrote a letter to Speaker Cannon urging that the house accept the senate statehood bill and thus save it from the danger of falling in conference.

The text of President Taft's letter to Speaker Cannon has not been made public, but it is understood that the president in his earnest efforts to obtain the passage of the statehood bill wrote very frankly on the subject.

The version current at the capitol is that Speaker Cannon was told that the house ought to concur in the senate amendments and not let the bill go to conference.

The president, it is said, gave it as his opinion that the senate bill is better than the house bill, and said that he thought the people of New Mexico and Arizona would be so grateful to the republican party for this boon of statehood that they would probably carry the new states for the republicans.

Leaven of Letter Noticeable.

The leaven of this letter was immediately noticeable on the republican side of the chamber, with the result that many republicans who were first inclined to send the bill to conference and let it take its chances there, without caring much whether it every came out of conference, are now in favor of accepting the senate amendments. Although the democrats are opposed to some of the sections of the senate bill, they probably will vote to accept the senate measure.

If the senate bill is accepted, the two states can be kept out of the union for two and one-half years.

Prescriptions of Bill.

The bill also abrogates the Arizona educational tests for voters in the matter of electing delegates to the constitutional convention, ratifying the constitution and voting for the first set of state officers. The bill also requires the approval of congress and the president of any constitution which either Territory may adopt. The bill also sets aside 1,000,000 acres of land to pay off certain debts incurred by the counties of the Territories.

CURE PANAMA CELEBRATION

Washington, June 16.—Both San Francisco and New Orleans must raise \$7,500,000 before they can hope to receive the government endorsement for expositions in celebration of the completion of the Panama canal.

The House committee on Foreign Affairs today decided not to invite foreign nations to participate until these conditions are complied with.

## KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once become infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

I lay my strength to Cardui, the woman's tonic. I have taken a lot of it and I can never praise it enough for what it has done for me. I can never thank you enough for the advice you gave me, to take Cardui, for since taking it I look so well and am stout as a mule."

# SOUTHLAND REACHING FOR SETTLERS

Congressman From Louisiana Would Turn Tide of Emigration Southward.

Washington, June 18.—With "Go South, Young Men and Immigrants" as his keynote, Representative Ransdell of Louisiana Tuesday addressed the house, as a sort of advance agent for the southland, in general, and the state of Louisiana in particular.

He based his remarks on the exodus of many of "our best citizens" into the British possessions north of the United States and the rapid congestion of our cities, caused by the growing unpopularity of life on the farm, and by the large influx of foreign immigrants, many of whom settled in cities. As a remedy for all these problems, he suggested to the house that the persons concerned should be induced to come to the south.

"In my judgment," said the Louisiana statesman, "this is one of the fruitful causes of the high prices of living. All food products—and the food we eat is our heaviest item of expense—comes from the ground or the sea, and when the number of consumers who dwell in cities disproportionately exceeds the producers in the country, it naturally results in high prices."

In this connection Representative Ransdell said that "what is happening to us is also happening to the nations of Europe."

He also showed that during the last five years 312,614 citizens, carrying with them material wealth in money and property valued at over \$312,000,000 "to say nothing of the immense potential value of each of these splendid people," emigrated.

"The southern states would gladly furnish homes to every one of our own citizens," said he, "who have gone to Canada, or contemplate such a move, and would welcome all the boys and girls who have left or expect to leave the hardships of northern farms to seek unfamiliar work in congested cities. Moreover, we can supply farms to a great many of the foreigners who seek our shores, and we are really anxious to receive all good immigrants of the Teutonic, Scandinavian, British and French races."

He challenged the statements that the south was not a healthy section. The whites, he said, were just as healthy as whites in any other section of the country. "The negro race is not healthy," he admitted, "for reasons which the scope of this speech prevents me from discussing."

Speaking of the negroes, Mr. Ransdell said: "Some one asks about the race question in the south, whether the Caucasian and the negro can dwell together in harmony. I unhesitatingly answer that they can and to live in the utmost perfect amity."

## JOKE ON ADA MAN

County Candidate Wao Rides Incubator Hobby Advises Host's Wife to Buy an Incubator.

The other day there were a number of candidates gathered around the bountiful dinner table of a prominent Rooseveltian anti-suicide farmer, where there was introduced the subject of chicken raising. A certain candidate from Ada who is an enthusiastic chicken man with an incubator immediately took the lead in the conversation. So intently did he continue to discuss the subject of chickens, that he didn't notice the fact that a diplomatic candidate had changed the main body of the conversation by raising the subject of children, first inquiring of the farmer, the number of his children; the farmer facetiously replied "I'll declare I don't know, how many wife? While the good wife was pondering, the Ada candidate, at the height of his incubator talk, unmindful of such change in the conversation turned to the lady of the house and said: "You ought by all means get you an incubator."

This Ada candidate has since arranged an itinerary for himself.

The 42 club, with several guests, spent a very pleasant evening with Mr. and Mrs. A. K. Thornton, Friday. A delicious ice course was served the members and special guests Mr. and Mrs. Sledge, Mrs. Hall, Misses Alpha Sledge, Voglesang, Benson, Ula Clare Sims, Currie, and Yates, of Paris, Tex., and Messrs. Thursday afternoon from 4 to 6 o'clock Miss Eula Clare Sims was the charming hostess to her friends. The party was given in honor of Miss Sims' guest, Miss Yates, of Paris, Texas. 42 was the feature of amusement during the hours. Miss Katz rendered some pleasing piano numbers. The guests were Miss Yates, of Paris, Miss Williams, of Paris, Miss Sledge and guests, Misses Voglesang and Benson; Misses Thompson, Shands, Kathrine and Sadie Edmiston, Currie, Sowers, Henderson, Katz and Tolbert.

Mrs. Wintersmith and Miss Thompson assisted the hostesses in serving a refreshing salad and ice course. The entertainment was a most enjoyable one and adds another to the many pleasant social functions given in honor of these three winsome young ladies who are making many friends during their stay in our city.

Such an enjoyable event was the occasion when Meadames McKeel, Barton and Bowman entertained the literature department of Sorosis on Friday afternoon at the pleasant home of Mrs. McKeel. The home was beautiful in its decorations of cut flowers and ferns, carrying out the club colors, pink and green.

The members gave a hearty welcome to Mrs. Manville, and glad to have her with them.

In making a "Tour of the Globe" Mrs. Johnson guessed all of the cities and countries, through which the guests must pass, and was awarded with a beautiful hand-painted china cup and saucer.

The guests were then ushered into the dining room where the following four course luncheon was served.

The afternoon passed, oh, so quickly, and at a late hour the guests departed feeling in their hearts, that these ladies were excellent hostesses and proficient in the culinary art.

Truck Growers Would Make "Reser-  
voirs for Irrigation Purposes.

Washington, June 16—The problem to turn the Rio Grande into a series of reservoirs for the purpose of storing enough water to irrigate 1,000,000 acres of semi-arid land on the Texas and Mexican sides of the Rio Grande, from Del Rio to Brownsville, will be presented to President Taft tomorrow by Census Supervisor Lawrence E. Bennett of Mission, Hidalgo county, and Representative Garner of that congressional district. This can be accomplished only through a new treaty with Mexico permitting the use of the Rio Grande for irrigation, instead of for navigation, as now provided.

The whole matter is fully set out in a memorial prepared by the Mission Truck Growers' Association of Mission, Tex., which, among other things, sets out the following: "We favor the abrogation of the present treaty with Mexico which establishes the Rio Grande as a navigable river and the utilization of all the waters of that river above Brownsville for irrigation purposes and its abandonment for navigation west of Brownsville."

"We favor a treaty with Mexico defining what part of the waters of the Rio Grande belongs to the United States and what part belongs to Mexico."

"We favor the authorization by treaty of the right of either government or private capital to build international dam or dams to raise the level of the water at suitable point or points and make it possible thereby to build a high level main trunk canal or canals to supply water by gravity without pumping to all the present canals if desired both for first and second bench."

"We favor the establishment by treaty with Mexico of large storage reservoirs to collect, in so far as possible, the flood waters of the Rio Grande for use during the period of low water."

Would See the Big Fight But Don't Like to Be Restricted.

San Francisco, June 17—Here is a list of the pleasures from which 175 colored gentlemen, who had chartered a special train to come from Oklahoma City to see the big fight, had agreed to abstain from while en route.

Carrying razors  
Rolling the bones  
Eating chicken not regularly purchased

A delegation of that many investigators of Ethiopian persuasion, residents of Oklahoma City, completed arrangements with the Southern Pacific company for a special train from their city to this city very early in July.

They were coming here to investigate a report that a certain white man is a more proficient champion boxer than a certain black man and the result of their investigation would be made the subject of a scientific which they attack great questions discussion and, perhaps, the occasion of one or two cutting affairs, which are no more than indicative of the energy and enthusiasm with which they attack great questions and each other.

### Razor Practice Barred.

The trip, however, would have proved a great hardship to the travelers, for the railroad company, after a long and exhaustive study of the problem, announced that the investigators would be permitted the use of the train for only sleeping and eating purposes and that no athletics or indoor sports, such as razor practice or the development of arm and throat muscles by rolling freckled ivory cubes on the floor would be tolerated.

There was no ban on singing or the consumption of chicken, but the chickens were to be in the cars when the train is boarded or must be brought in by employees of the company, and the members of the delegation have been told that the company will consider it a faux pas on the part of any investigator who employs bohemian methods in the selection of his meals or the constituent parts thereof.

A green oasis in the desert of tranquility had been provided for five of the gentlemen who make up the party are tonorial artists. It would out of the question to ask that they shave with combs and brushes, but the rule in inflexible that their razors were to be used solely for shaving in the regular way that is standardized by barbers of the lighter complexion.

It is on the honor of these five gentlemen that the railroad company depends its hope to have just as many live persons get off the special as boarded it at Oklahoma City, for it has been known to happen that a gentleman borrowed a razor on the statement that he was going to shave himself and ten minutes later convicted himself, among other things, of lying.

### "A Magnanimous Outrage."

One of the passengers is a gentleman who aspires to be minister to Dahomey. He lived in Texas then. The government said he could not be what he wanted to be with its knowledge and consent, so he abandoned Texas to its fate and moved to Oklahoma.

The investigators do not regard the restrictions named as a bar to their pleasure, but the sentiment in this city condemns the railroads' orders as outrageous.

Yes, indeed," said one of a group of colored persons yesterday, this is one of the most magnanimous outrages ever perpetrated by a corporation and, to say the least it smacks of indubitability. Further, I am constrained to the impression that our race would soon fall into decayment if white folks made it mandatory that we should have absolutely to disqualify the use of razors. It is undeniably sacrilegious.

### BURIED TREASURE GOOD "AD."

London Nearly Torn Apart Seeking Sir George Newnes' Gold.

The recent death of Sir George Newnes, proprietor of the Westminster Gazette, founder of the company owning Tit-Bits and the Strand Magazine and donor of the international chess trophy bearing his name, will recall to many the "buried treasure" method by which he advertised his publications in London a few years ago.

It was announced that a tube containing 500 sovereigns had been buried in some secret place, the clue to which was contained in a story published in the Strand. The resulting excitement can be imagined. All England was turned upside down. Then came the announcement that another deposit of ten lots of £100 each had been made.

Something in the story seemed to point to Trafalgar square as the place where the treasure was buried, and the police had to be called out to stop the eager treasure hunters. Houses were pulled down, shops were invaded by persons who insisted that they be allowed to burrow under the floors, and traffic was held up while the gold crazy horde measured off distances with a tape.

Finally it looked as if they might tear down the Nelson column. It was then that the police intervened and put a stop to the plan, but the Newnes publications had already gained a tremendous amount of free advertising.

The first numbers on the Chautauqua program are very fine. Do not miss the first numbers.
